Four-Class Average	46%	55%
Student-Athlete Academic Success Rate		70%

Information About the 2009 NCAA Division II and NCAA Division III Federal Graduation-Rates Reports and the 2009 NCAA Division II Academic Success Rate Reports

This information sheet and the 2009 NCAA Graduation-Rates Report have been prepared by the NCAA, based on data provided by the institution in compliance with NCAA Bylaw 30.1 and the Federal Student Right-to-Know and Campus Security Act. Each NCAA Division II and III college or university is required to distribute this sheet and the report to prospective student-athletes and parents, as specified in Bylaw 13.3.1.2.

The Graduation-Rates Report provides information about two groups of students at the college or university identified at the top of the form: (1) all undergraduate students who were enrolled in a full-time program of studies for a degree, and (2) student-athletes who received athletics aid from the college or university for any period of time during their entering year. [Note: Athletics aid is a grant, scholarship, tuition waiver or other assistance from a college or university that is awarded on the basis of a student's athletics ability.]

The report gives graduation information about students and student-athletes who entered as full-time students for the first time in the fall of 2002. This is the most recent graduating class for which the required six years of information is available.

A graduation rate (percent) is based on a comparison of the number (N) of students who entered a college or university and the number of those who graduated within six years

Freshman-Cohort Graduation Rates.

1. Graduation-Rates Data. The box at the top of the graduation-rates report provides freshman-cohort graduation rates for all students and for student-athletes who received athletics aid at this college or university.
2. Undergraduate Enrollment Data.
 - a. All students. This section indicates the number of full-time, undergraduate, degree-seeking students enrolled for the 2008 fall term and the number of men and women in each racial or ethnic group.
 - b. Student-athletes. This section identifies how many student-athletes were enrolled for the 2008 fall term and the number of men and women in each racial or ethnic group.

ACADEMIC SUCCESS RATE

For Division II institutions, the academic success rate (ASR) adds transfer students, second-term enrollees, and those freshmen who did not receive athletics aid to the equation. Students from the entering cohort who are considered allowable exclusions (those who either die or become permanently disabled, those who leave the school to join the armed forces, foreign services or attend a church mission), **as well as** those who would have been academically eligible to compete had they returned to that institution are removed from the equation.
