Declaration of Disciplinary Academic Minor
St. Andrews Presbyterian College

Note: 1. The academic minor consists of 18 - 32 credits, with a minimum of 9 credits being at the 300/400 level. A student must declare an academic major before declaring an academic minor. Details of specific academic minors may be obtained from the department chairperson. All minors must be declared before registration for the final semester at St. Andrews.

2. Minors, including interdisciplinary minors, must contain at least 18 credits that are not part of the students majors or any other minors the student may have declared. At their discretion, departments and programs may disallow any overlap for majors or minors. Second (or third) minors declared within the same academic division as the students first minor or major must be submitted to the division council of that division for approval.
