

Interdisciplinary Studies Courses

IDS 401 Senior Experience in Interdisciplinary Studies (1 credit)

This course is the senior capstone experience in the Interdisciplinary Studies major. Students will write a synthesizing essay focused on the theme and learning outcomes developed for the Interdisciplinary Studies contract and reflecting upon the integration of disciplines included in the contract. There will be an oral presentation and discussion of the essay involving faculty members from each discipline included in the major contract. As appropriate to the theme and learning outcomes of an individual Interdisciplinary Studies contract, IDS 401 may include other projects or experiences in addition to the synthesizing essay. This course is required of all Interdisciplinary Studies majors and is to be taken in the final semester of the senior year. Prerequisite: Interdisciplinary Studies majors only.
