

Minor Requirements

St. Andrews offers optional academic minors in selected disciplines. In addition to regular minors listed, students may complete an interdisciplinary contract minor.

The regular academic minor consists of 18-32 credits, of which nine credits must be at the 300- and 400-levels. The minor in Music is an approved exception to this upper level rule. The interdisciplinary contract minor must consist of a minimum of 8 courses (24 credits) from three or more program areas.

All minors must be declared before registration for the final semester at St. Andrews.
